WORK EXPERIENCE

CIVIL ENGINEER, *Espacio Builders Inc.*

Feb 2026 – Aug 2026

- Executed digital quantity takeoffs in PlanSwift for a 2-storey house facade renovation to prepare accurate BOQs and BOMs for bidding.
- Managed budget trackers and weekly progress reports for a 3-storey residential build with underground structures, exterior wall tiling, and tarpaulin installations.
- Designed structural layouts for reinforced concrete cisterns and stormwater management tanks using AutoCAD.
- Managed site administration and processed labor payroll for a workforce of 30+ site workers alongside subcontracts and purchase requests.
- Coordinated weekly alignment meetings among clients, consultants, contractors, and suppliers to keep projects on schedule.

INTERN – CADET ENGINEER, *Metro Stonerich Corporation*

Aug 2023 – Sept 2023

- Conducted site inspections and assisted in concrete slump/cylinder testing to enforce safety, quality control, and plan compliance during high-rise construction at The Paddington (Shaw Blvd).
- Reviewed structural blueprints to perform rebar quantity calculations, identifying design discrepancies and coordinating directly with project engineers for technical resolution.
- Generated daily and weekly accomplishment reports to track material usage, monitor quality control, and document overall high-rise project progress.
- Collaborated with engineers, site personnel, and testing technicians to resolve site concerns and ensure precise material delivery and inventory planning.

EDUCATION

Bachelor of Science in Civil Engineering

Oct 2020 – March 2025

Polytechnic University of the Philippines – Manila

- Major in Water Resource Engineering
- Final CGPA: 2.18
- **1st Year** – President's Lister
- **2nd Year** – Dean's Lister
